

AGRI CHAIN

COBIOLUBE®

PROFESSIONAL HIGH TECHNOLOGY
CHAIN LUBRICANT

Cobiolube® Agri Chain is a new generation of environmentally friendly lubricant for the agricultural industry. The liquid has been developed for the lubrication of chains similar to those in round baling machines.

Cobiolube® Agri Chain shows outstanding performance, reduces maintenance and increases the life of your equipment.

Cobiolube® Agri Chain is compatible with both automatic and manual lubrication systems. The liquid reduces the accumulation of dust and dry grass, which significantly reduces the risk of fire.

Cobiolube® Agri Chain

- Excellent lubrication properties even in high speed
- Keeps the machine and chains clean, which reduces the need for maintenance
- Reduces wear and tear
- Can reduce consumption
- Anti-rust properties
- Biodegradable to 100%
- Cobiolube® Agri Chain has been awarded the ECO label

The lubricant's most important task is to lubricate the shaft and sleeve in the link. If there are an excess of liquid, this will not collect dust and other particles in the same way as usually happens.

Packaging

Cobiolube® Agri Chain is delivered in following packaging

Art. nr.	TA-CA0010 (10 liters)
Art. nr.	TA-CA0020 (20 liters)
Art. nr.	TA-CA0200 (200 liters)
Art. nr.	TA-CA1000 (1000 liters)
